# Calling all Artists!

The 2024 Cat'n Around Catskill is quickly approaching, and with it is coming a very exciting new season for the Heart of Catskill. We are counting on all of you wonderful artists out there to create incredible, original artwork that will amaze both local cat lovers and those who travel from far and wide to experience "Cat'n Around Catskill"!

Participating in "Cat'n Around Catskill" is a great way for artists to gain public recognition. Both sponsors and artists will be promoted in both print and social media, at events, and on the streets! There will be many promotions and special events throughout the season circulating your name and artwork to the public!

Artists wishing to participate will create colored sketches of their designs for a fiberglass cat, approximately 28 inches tall, available either in a sitting or standing position and mounted on a base. While you have complete freedom with your design, one thing to take into consideration is that some of our sponsors are looking for designs that complement their businesses. Completed designs (limited to three submissions per artist) need to be submitted to the "Cat'n Around Catskill" Committee for the selection process. It is essential that all designs be submitted by **December 31, 2023**. Any submitted after the due date are at risk of not being chosen by a sponsor. Once the design has been approved by the committee, you will be invited to the Artist/Sponsor Reception where sponsors will select a design. The reception will be held in January (date/time TBT). Following the reception, our office will notify you whether or not your design was selected by a sponsor. The Cats will be ready to be picked up at the Heart of Catskill office in late January, and over the next several months, artists will transform their Cats. The Cats will be on display in Catskill from Memorial Day through Labor Day. Following their summer on the street the Cats will be auctioned at the "Cat's Meow Auction & Gala" at the Historic Catskill Point sometime in September 2024.

In profound appreciation for the work done by our artists, you will receive a 30% share of the gross amount for which the Cat is auctioned. Artists who return their work by the due date will receive the 30%. However, ***artists who do not deliver their completed Cats by the due date will receive a smaller percentage.*** It is unfortunate that this needs to be done, but the tardiness of even one Cat delays the timely production of the brochure. The remaining net will be divided among local not-for-profit agencies to support the arts, the Barry Hopkins Scholarship fund, Dutchman's Landing Park, and future public events for the community.

# Selection and Approval

- 1) The "Cat'n Around Catskill" committee will review all submission packages for inclusion in the project.
- 2) Designs approved by the committee will be presented to the sponsors for consideration at the Artist Sponsor Reception. The sponsor will make the final selection of the design and notify The Heart of Catskill.
- 3) All artists will be informed whether or not their design has been selected by a sponsor.
- 4) Artists will receive \$50 compensation for supplies when their Cat is picked-up.
- 5) Artist will receive 30% commission from the gross auction price of the Cat if the Cat is completed by the due date, April 15, 2024. ***Only partial or no commission will be paid for submissions after the due date, depending on how late the artwork is submitted. Please, this is VERY important to ensure the brochure will be out by Memorial Day!!!!***

## Artist's Tips and Techniques (Updated for 2024)

Think permanence and prepare for damage by time, weather, and people!

### DESIGNS MUST BE APPROPRIATE FOR PUBLIC DISPLAY

- Public safety is a significant concern. Designs should be created with durability and safety in mind.
- Designs that are religious, political, or sexual in nature will not be accepted.
- Corporate logos and advertising are not permitted
- A review panel will evaluate all designs and has the sole discretion to accept or reject any design

### PREPARATION

- Wash the surface of your Cat to remove dirt and oils before beginning work
- Check for holes to fill or defects in the surface and fill small holes with a two-part-epoxy clay. Smooth and let set before sanding.
- **Apply a primer** such as Gesso and let dry completely before painting

### EMBELLISHMENTS

- The contact gromets at the base of the cat cannot be removed, altered, or obstructed in any way.
- All added embellishments must be **Weather-Resistant** and affixed so it can NOT be pulled off.
- Artists may alter the basic cat form but cannot compromise its structural integrity.
- Consider the **weight** of props, as they can be a problem lifting and transporting the finished cat.
- **FABRIC:** Clothing, hats, bags and other items made of fabric may deteriorate and/or fade outside. Weather-proof with a fabric hardener such as **Paverpol** or **Amazing Fa-Brick**
- For sculpted elements, use a two-part epoxy clay such as **Magic Sculpt** or **Epoxy Sculpt**
- Props stick best to a clean, unpainted surface. Use sandpaper or a wire brush to create a rough surface where you plan to attach props for better adhesion.
- Warn anyone who may move your cat NOT to handle by the props that have been added. Props may look to an outsider like a permanent part of the cat, but they are prone to breaking off if handled without proper care.
- Do NOT use craft or scrapbooking stickers. They are not meant for permanent outdoor display. Permanent vinyl made for use with a Cricut cutting machine works well.

### PAINT

- Use **Acrylics** such as Liquitex, Lascaux, Golden, Windsor-Newton, or other professional **Acrylic** paint
- **Oil-based** paints are NOT recommended. If you must use oil-based paints, allow sufficient time to dry before turning in your cat. **You must NOTIFY HOCA** when your cat is dropped off if you have used oil-based paint. Our auto body shop uses a special process when applying the clear coating over oil-based paint and must know in advance.
- **Avoid all latex paints**

### ADHESIVES

- We recommend using epoxy adhesives such as Gorilla Glue clear grip, or for heavier props, Gorilla 2-Part Epoxy, 5 Minute Set or similar glue
- For optimum bond, we would recommend that adhesives and fillers be used on the fiberglass base itself prior to any priming or painting.

### CLEAR-COATING

- Protect your artwork from scratches during transit with a clear coating such as **Krylon UV-Resistant Clear Acrylic Coating in MATTE finish**. Matte finish allows us to take better photos of your work before your cat professionally is clear-coated. Glossy finish coatings reflect the light and may obscure areas of your artwork. There have been cases where too much varnish or the wrong kind of varnish was applied by the artist, which then reacted badly with the professional clear coating. LESS is more!
- ALL Catskill Cats will be taken for a professional auto-body clear coat. NO EXCEPTIONS unless your design is made with mosaic or mirrored surface. Mosaic Cats will not be clear coated.

## Acknowledgement for Artists

Artists participating in "Cat'n Around Catskill" 2024 will be acknowledged in the following ways:

- 1) The artist, title, and sponsor of each Cat will be displayed on a plaque which will be mounted on the base of each Cat.
- 2) The artist, title, and sponsor of each Cat will be listed in the "Cat'n Around Catskill" brochure which will include a map that indicates the location of each Cat in the Catskill area.
- 3) The artist, title, and sponsor of each Cat will be listed on the "Cat'n Around Catskill" website.
- 4) The Cat, along with its artist and sponsor, will be featured in both print and social media throughout the season.
- 5) Artists, Sponsors and Cats will all be honored at the Cat's Meow Auction and Gala in September 2024. Artists will receive one free ticket to the Gala.

## Resources for Artists

The BEST resource if you have questions when creating your Cat is to email the Cat'n Around Catskill Coordinator at [catnaroundcatskill@gmail.com](mailto:catnaroundcatskill@gmail.com). Over the past 17 years, we have seen everything and can offer advice about what works and what to avoid.

Another great resource is **John Imbesi, Jr at Quality Auto Body**. Quality Auto Body has been clear coating the Catskill Cats for many years. John Jr is very knowledgeable about the Catskill Cats, especially if you are considering making alterations to your cat that would involve drilling into the fiberglass form to add embellishments or alter the appearance of the Cat. Email [gabcustoms@aol.com](mailto:gabcustoms@aol.com) or call (518) 678-9688.
